Introduction from Jim McGeorge, Chair APUC

On behalf of the Board of APUC Limited, I am delighted to introduce APUC's Annual Report for the year 2017-18.

This year has again been one of substantial development and change for the sector and APUC, and also another one of significant achievement which I would briefly like to take you through.

The **General Data Protection Regulation (GDPR)** became law in the reporting year and APUC reviewed and documented all of its internal processes to ensure that they were fully compliant with the standard. Terms and Conditions for suppliers were also updated and a Contractor (Processor) Assessment Form was issued to assess suppliers' compliance with GDPR. These were posted on the Buyers Portal when completed, for ease of access.

A new **Corporate Strategy** for 2018 to 2022 was released in December with the following key objectives:

- to increase Efficiency and Collaboration
- to deliver Sustainable and Responsible Procurement
- to maximise Savings and Benefits
- to widen Access and enhance Supplier Development and performance
- to Increase Capability and support Continuous Improvement

Circa 180 collaborative **Framework Agreements** were available to the sector throughout the year and the potential spend against this portfolio was £359m.

APUC's **Procurement Shared Services** continue to be well received with around 40 staff now providing support for over half of APUC's member institutions. There are now 3 established regional teams in place in Edinburgh, Glasgow, Highlands & Islands and one more due to go live in August (Tayside). Regional teams work across several institutions in a geographical area – each institution has local professional procurement presence but the resources employed category manage all of their category's expenditure across all the institutions in the regional team.

Quarterly **Category Bulletins** were published throughout the reporting year and they continue to be well received by stakeholders. These keep institutions up to date on all relevant category developments for Estates, HR, Labs, Professional Services and CI contracting support. These will continue to be developed based on stakeholder feedback.

Over 80 suppliers have now been requested to complete their supply chain assessment on the **Sustain website** and a total of 46 sub-tier suppliers were identified for consideration for review. A new 'dashboard' view of Sustain was launched for Heads of Procurement/Heads of Category and new Responsible Procurement Champions within APUC.

The Development and Sustainability team has been contacting institutions to arrange catch up meetings to help them prepare for the next round of **Procurement and Commercial Improvement Programme (PCIP)** assessments to be conducted in 2019 and a web portal for publication of PCIP data is fully operational on the APUC SharePoint site.

The Buyers Guide Portal is now well established allowing eSolutions, D&S and Collaborative Contracting related information to be made available to institutions.

The websites for gathering spend data against contracts/frameworks from both institutions (**Contract Uptake**) and suppliers (**Supplier MI**) were updated to improve the accuracy of management information available to procurement professionals.

The APUC **SharePoint** site continued to be developed and measures were put in place to improve information security as recommended by the government's **Cyber Essentials** initiative.

Funding to support the continuation of the Information Services Catalyst (ISC) as the **Collaboration Catalyst** was approved by the HE/FE Funding Consultation Group so the ongoing shared service development activity and collaborative support activity provided by the ISC will now continue although it's brief will be extended to support shared service and collaboration enhancement in other business areas.

The **DPO Shared Service** successfully launched in May, providing Data Protection Officers for the majority of Scotland's FE institutions, as well as some HES.

InfoSec transitioned to a new Regional model called "**CISO-Share**" to more aptly characterise the new model of delivery by only CISOs and a new company (**HEFESTIS Ltd.**) was set up and CISOs and DPOs transitioned to this new entity which is not part of the APUC Group.

APUC has continued to achieve considerable success for the sectors by working closely with its client institutions and, with them, forming a highly focussed collective team. I would like to extend my thanks to all institutional staff involved in procurement activity for their cooperation and to all staff in APUC for this outstanding example of sustained and highly productive collaboration.

I should also like to convey my warm thanks to my colleagues on the APUC Board whose guidance and support for the development of APUC has been, and continues to be, extremely valuable.

The 2017-18 Financial Statements and associated reports are available on the [corporate information page](#) on the APUC website

The report this year provides summaries of key actions and achievements across the 2017/18 Academic Year by the APUC team.

In GENERAL

- New APUC Strategy developed to cover the period from 2018 to 2022.
- The **Procurement Network Conference** held in May at the Stirling Court Hotel was again very well supported with 118 delegates attending. A variety of plenary sessions took place covering topics such as GDPR, Electronics Watch and the issue of pollution caused by Plastics Waste.
- The **Edinburgh Office** facility was reviewed at the 3 year break point in the lease and the decision taken to remain at 101 George Street but with reduced space and cost. This to be effective from 31/8/18.
- Final e-enablement of the **Finance System** was completed with the implementation of the e-procurement module.
- APUC selected Alzheimer Scotland as its **Charity of the Year** and £1,179.50 was raised through various events.

Maximising options & benefits from COLLABORATIVE PROCUREMENT

- Circa 180 collaborative **Framework Agreements** were available to the sector throughout the year and the potential spend against this portfolio was £359m.
- **Category eBulletins** continued to be issued quarterly. These focus on the contracting programme and any useful updates for the category stakeholders. Bulletins are also issued for C1 contracts.
- All **GDPR** relevant suppliers were issued with revised Terms and Conditions for frameworks and stand-alone contracts and a Contractor Assessment Form was also issued to assess their compliance with GDPR. Operation Procurement continues to progress the status of these activities with all relevant suppliers.
- **Operational Procurement Strategy** was updated in line with 2018 – 2022 Strategy.
- The 2017 **Contracting Priorities Workshop** (CPW) was held on the 9th February at the Stirling Court Hotel and was very well attended. The CPW had a busy agenda focussing on Category Portfolio Workshops to agree the best utilisation of resources throughout the year. There was also a demonstration of the new Contract Uptake Tool and Hunter Contract Planning. A session was also held on improving collaborative ways of working.

October 2017 – Early January 2018
Category Bulletins

Developing INSTITUTIONAL PROCUREMENT SERVICES

- The first **Responsible Procurement Champion** was assigned to pilot the work of this new role and started leading work to develop tools to move the Responsible Procurement agenda forward in institutional procurement activity.
- **Institutional support teams** are now well established and divided equally between regionally focussed areas.
- The **Shared Service Institution Reports** are now published annually and continue to be met with positive feedback by all stakeholders.
- **Over half of APUC member Institutions** now benefitting from APUC shared service staff.
- **Circa 40 staff** are providing on-site procurement capability on a shared service basis.

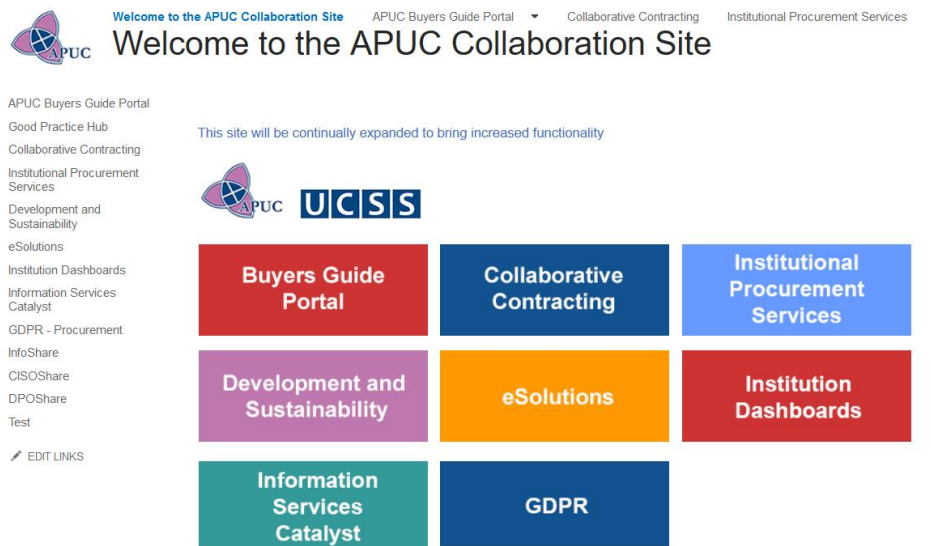

Delivering on DEVELOPMENT and SUSTAINABILITY – another busy year....

- APUC ran 20 externally provided **training courses** over the past 16 months for the sector, which were all fully booked (delivered to circa 350 attendees).
- Over 80 suppliers have now been requested to complete their supply chain assessment on the **Sustain website**. 14 suppliers completed the assessment and results were published. A further 2 suppliers were being validated / awaiting publication and a total of 46 sub-tier suppliers were identified for consideration for assessment. The website is under continual development to improve and streamline the validation process.
- A new 'dashboard' view of **Sustain** was launched for Heads of Procurement / Heads of Category and new Responsible Procurement Champions within APUC.
- The **Management Trainee programme** continues to be extremely successful, with 4th round resources now well into their first year of training.
- **Electronics Watch** continued to run seminars, the most recent of which was on 'SRPP – Extending to Extractives in the Electronics Industry' and this is available on their website. Electronics Watch also attended the Procurement Network Conference in May to discuss what buyers can do to influence and support change in the industry.
- The Development and Sustainability team has been contacting institutions to arrange catch up meetings to discuss the outcomes of the first **Procurement and Commercial Improvement Programme (PCIP)** assessment round, progress to date and any issues ahead of the next formal round. The web portal for publication of **PCIP data** is fully operational on the APUC SharePoint site.
- Guidance was issued to institutions on how to prepare their **Annual Procurement Report** as mandated by the Procurement Reform (Scotland) Act.

Enabling excellence in technology use through eSOLUTIONS

- The **PECOS Gateway** was launched to enable public bodies to 'punch out' of their own finance systems and seamlessly 'punch in' to shop catalogues available to them and create requisitions. Three institutions are in the process of implementing PECOS Gateway capability.
- A **Contract Uptake** website replacement was launched allowing institutions to provide feedback on which Framework Agreements they are using. This incorporates information from the Hunter database making it easier to update.
- The new **Supplier MI** website was launched. The site improves the process for contracted suppliers to record institution spend through agreements and enhances the accuracy of spend data collection.
- The **APUC internal SharePoint** site continued to be developed. Navigation has now been improved to assist with accessing data and additional sites were created for Infoshare, DPOshare and CISOShare.
- **Cyber Essentials Plus** –Two factor authentication was set up with administrators and planned for rollout to all staff by end August 2018.
- A **Supply Chain Contract Management** website was developed to allow contract managers to schedule supplier meetings and track supplier performance.

APUC/UCSS could not function without the continuing support from the CORPORATE SERVICES teams

- Local support for IT, facilities and communications is now well established for each APUC office location.
- Continuing support for client facing media (eBulletins etc).
- Stakeholder and staff eZines now well established as a popular means of communication.
- Full Finance support to the business, for staff and external stakeholders.
- HR support that was previously provided by Queen Margaret University as a shared service has now been replaced with a dedicated in-house HR Manager. All HR policies have been reviewed and updated during the 2017/18 year.

The Universities & Colleges Shared Services (UCSS) INFORMATION SERVICES CATALYST

– *catalysing shared services across Information Services in Universities and Colleges*

- The IS Catalyst (ISC) continued to develop and is now transitioned to the **Collaborative Catalyst**. The ISC was a time limited project funded to the end of July 2018.
- Funding to support the continuation as the **Collaborative Catalyst** was approved by the HE/FE Funding Consultation Group so the ongoing shared service development activity and collaborative support activity provided by the ISC will now continue although it's brief will be extended to support shared service and collaboration enhancement in other business areas.
- The **MoodleShare** shared service continues to support three institutions with their VLE infrastructure.
- The **DPO Shared Service** successfully launched in May, providing Data Protection Officers (as mandated by new GDPR rules that came into effect on the 25th of May 2018). This service covers the majority of Scotland's FE institutions, as well as some HEs. Seven Data Protection Officers started in the month of May, covering all the institutions who joined the service.
- InfoSec transitioned to a new Regional model (with the hiring of 2 new Regional CISOs to supplement the existing CISO). The new model formally began on 1/8/18 when the new resources were all in place. The name of the Service was changed to "**CISO-Share**" to more aptly characterise the new model of (more localised) delivery by only CISOs.
- A new company (not part of the APUC Group) called **HEFESTIS Ltd** was set up to host all sectoral information services shared services and all CISOs and DPOs will be moved into this company with effect from early August 2018.

Update on GOVERNANCE:

- Gerry Webber, Edinburgh Napier University resigned from the Board on 19/2/18, in parallel to his retirement from Edinburgh Napier University. The Board wishes to express their sincere thanks to Mr Webber for his excellent chairmanship of the APUC Board.
- Jim McGeorge, University of Dundee joined the Board on 4/12/17 and almost immediately took on the role of Chair.
- Liam McCabe, University of Stirling stepped off the Board on 18/5/18 as he took on the role of Chairing SUFDG.
- Phil McNaull, University of Edinburgh joined the Board on 18/5/18 as Liam McCabe's replacement.
- Sheena Stewart, Abertay University kindly agreed to extend her current term as an HE director on the Board by one year to May 2019 to enable the directors 3 year term cycle to be brought into sync
- Janet Thomson, Glasgow Clyde College agreed to continue to serve as an FE director for a further three years until May 2021.
